

Title: Meeting of the Task 3.8 community of WP3

Wednesday 27.01.2021 at 12:00-14:00 CET via videoconference

Chair: Jürgen Neuhaus, TUM// WP3 PIK

Participants:

PNPI speakers and attendees:

Sergey Grigoriev, NRC KI PNPI // WP3 PIK

Kirill Pshenichnyi, NRC KI PNPI

Elena Likholetova, NRC KI PNPI

Other speakers and attendees:

Jürgen Neuhaus, TUM

Otilia Culicov, JINR

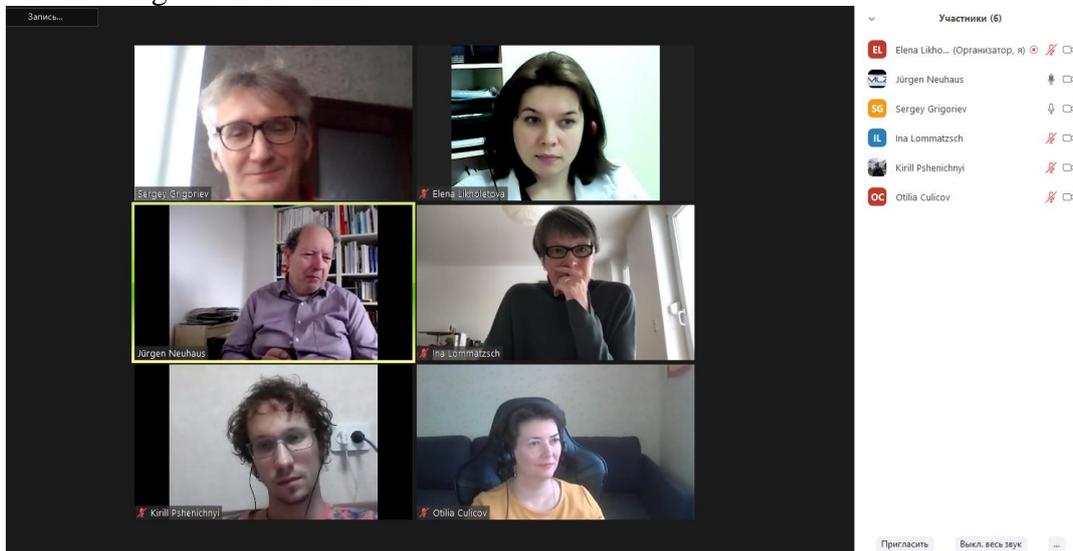

Ina Lommatzsch, MLZ

Invited guests:

Excused

Brief Description:

The meeting was held online.

The CREMLINplus kick-off meeting of the Task 3.8 community of WP3 was held on 27 January 2021 via videoconference with the subcommittee members, PNPI, TUM, JINR and MLZ scientists. Jürgen Neuhaus, Otilia Culicov, Ina Lommatzsch, Sergey Grigoriev and Kirill Pshenichnyi were participating as speakers.

In the introductory talk Jürgen Neuhaus presented the objective and work plan of the work package WP3 Task 3.8 of CREMLINplus, and defining the user office system with live cycle of a proposal.

Next, Otilia Culicov presented the talk “FLNP User program @ IBR-2 reactor“, in which gave information about organization of direct access; about two kind of applications: fast access and regular access applications; about IBR-2 User Association and User Committee.

In the following talks, Ina Lommatzsch. presented the report “User Office & User System @ MLZ”, in which compared of the “old” User System and the New User System GhOST, in spotlight the finetuned role management, simplify work, using all the data, software interactions in-house. Was considered the current status of the GhOST System.

Last, Sergey Grigoriev and Kirill Pshenichnyi presented the talk about User System at the International Center of Neutron Research (ICNR) at reactor PIK, included current status of the ICNR at PIK, possible strategic task for User System at PIK and what is possible to make in near future in the frame of the project.

Each presentation was followed by questions and discussion.

Materials from the kick-off the Task 3.8 community of WP3 meeting, including the agenda, available slides from the talks, and this report of the meeting can be found on PNPI website [<https://oiks.pnpi.spb.ru/cremlinplus-pnpi>].
