

Title: Meeting of the Task 3.8 community of WP3

Monday 15.03.2021 at 14:00-16:00 CET via videoconference

Chair: Valery Shvetsov, JINR

Participants:

PNPI speakers and attendees:

Sergey Grigoriev, NRC KI PNPI // WP3 PIK

Elena Likholetova, NRC KI PNPI

Other speakers and attendees:

Otilia Culicov, JINR

Dorota Chudoba, JINR

Yulia Gorshkova, JINR

Invited guests:

Excused

Brief Description:

The meeting was held online.

Discussed:

Development of the User Program at the PIK reactor.

Listened to S.V. Grigoriev

Sergei Grigoriev noted that within the framework of the CremlinPlus program "International cooperation for the development of the PIK reactor" in accordance with paragraph 3.8. by 2024, it is necessary to have a User Program at the PIK reactor. S.V. Grigoriev focused the attention of the meeting participants on the priority task in this direction - the creation of a website for submitting proposals for conducting experiments at the PIK reactor facilities and asked to share the experience of developing the User Program at the IBR-2 reactor.

During the discussion, V. Shvetsov, O. Culikov, D. Chudoba and Yu. Gorshkov expressed their readiness to advise their colleagues from PNPI on this issue, based on their experience.

Recommended: (1) register on the website for submitting proposals <https://ibr-2.jinr.ru/> and submit a test application for an experiment, which will allow evaluating the functionality of the site; (2) prepare a technical assignment for the development of a site and contact a company that is professionally engaged in the creation of sites for the implementation of the project; (3) when implementing the User Program at the PIK reactor, in particular, in organizing the reception of foreign users for performing experiments, take into account the specifics of the work of the administrative apparatus of the organization.

Made a decision: To instruct D. Chudoba to prepare and submit to PNPI representatives the main provisions (points) of the TOR, which must be taken into account when developing the site, based on the TOR developed to create the site <https://ibr-2.jinr.ru/>.

Materials from the kick-off the Task 3.8 community of WP3 meeting, including the agenda, available slides from the talks, and this report of the meeting can be found on PNPI website [<https://oiks.pnpi.spb.ru/cremlinplus-pnpi>].
